**A2LA Accredited ISO/IEC 17025:2005 Certificate # 2558.01**

## **903 METAL CONDITIONER & ALUMINUM BRIGHTENER**

ACCU-LABS 903 has been developed to economically clean and prepare aluminum surfaces prior to painting. ACCU-LABS 903 is also used by the transportation industry for cleaning aluminum bodied vehicles. ACCU-LABS 903 is economically attractive because of its ability to remove a wide variety of soils as a soak cleaner. 903 may also be used to remove brazing and soldering fluxes from steel, brass, stainless steel, etc.

### **OPERATING GUIDELINES:**

Concentration:	20% (by volume with water) - 100%
Temperature:	Room temperature - 180°F
Dwell Time:	30 seconds – 5 minutes (applications vary)
Tank:	Stainless Steel, PE, PP, PVC lined tank

**ANALYTICAL CONTROL:** Using a standard hydrometer maintain specific gravity at 1.35 by adding 903 Metal Conditioner when specific gravity falls below 1.35.

**HANDLING:** Always wear eye protection and personal protective gear when handling or working with this product, read MSDS before using.
